

Infant Nijole. P

2019041035

(2019 batch)

S. Thangapazham Agricultural College is one of the best among private agriculture colleges. They have well experienced faculties and quality of education is excellent. You could gain a good practical experience while learning. Farm and lab facilities are top notch. Good hostel facility and food. I'm proud to say, this college nurtured me to pursue my PG in horticulture at TNAU now. On my view this is the perfect place to start your UG in B. Sc. Agriculture.
